# ONE JOLLY FOR JUDD

THE MANILA AMERICAN TAKES HIS MISSION WITH APPARENT SERIOUSNESS AND TELLS THE FILIPINOS THAT IT IS A GOOD THING AND THEY OUGHT TO HELP PUSH IT ALONG—AN EDUCATIONAL OPPORTUNITY.

The Manila American of May 25 has the following about Albert F. Judd and his mission:

"We do not see anything amiss in the proposals made by Messrs. Judd and Stevens to employ Filipinos to work on the modern sugar plantations in Hawaii. It seems to us it would be an opportunity for the young and ambitious native to master modern methods in practical agriculture.

"We are sending young men to the United States to become proficient in other branches, yet none of these will be instructed how to grow sugar so as to obtain the best results from their labor.

"We have here in the Philippines many thousands of acres of sugar lands undeveloped, for the reason that we cannot meet competition because of the antiquated methods employed. There are many Filipinos for this reason seeking out an existence where, with modern methods, they would reap substantial reward.

"It is well known that the Hawaii planters have perfected the modern methods in sugar culture and every acre under cultivation at the present times produces from three to ten times

the amount on their lands that is produced in the Philippines on more fertile and desirable sugar lands.

"In a few years we will have free trade with the United States. Then there will be inducements for the practical sugar grower, and if there are no practical sugar men among the Filipinos it will be left to outsiders to develop the industry.

"We see in this proposal of Mr. Judd an opportunity that no young Filipino should neglect. He will be given a fair wage and a comfortable home for his family in a congenial climate. Four or five years' experience on the Hawaiian plantations, if he be enterprising would make him competent to return and apply his knowledge wisely to developing the resources of his native land.

"El Adelante fears that there will be a shortage of laborers in our fields. We do not believe it. A few thousand Filipinos might well be spared with good result. Even if the country had to suffer the opportunity for the thorough training of several thousands of young natives would prove of the greatest possible benefit to the sugar industry and to the islands."

## FREIGHT REFUSED FOR HAWAII

SAN DIEGO CHAMBER OF COMMERCE THINKS IT IS UP AGAINST IT.

The following is from the San Diego Union for June 9.

"Freight for Hawaii refused by the agent for the Californian, of the American-Hawaiian line.

"Senator W. A. Clark, president of the Salt Lake route, not coming to San Diego this month, or the next, or the one after that, from present indications.

"These things were the feature of the meeting of the directors of the Chamber of Commerce held at the quarters of the organization at 4:30 o'clock yesterday afternoon. The bombshell in regard to the refusal of freight for Honolulu was sprung when the following communication from Edwin C. Peebles & Co., was received by the assembled directors:

"To the President and Directors of the Chamber of Commerce, San Diego, Gentlemen: Some time since I wrote Mr. H. P. Wood at Honolulu, and he furnished me names of several merchants in that place. I wrote to these firms and yesterday I received a letter stating that they would like to do business with me and asking for further information as to prices, etc.

"I packed a box of samples and tried to ship it by the steamer Californian, now lying in the bay, but the agent refused to accept it, saying that he had to have a week's notice of any shipment and then had to get word

from San Francisco whether he should accept the shipment.

"This looked strange to me, but possibly your board may understand it better.

"My business is that of manufacturers' agent, and I am selling Harding cereal coffee here in San Diego. In addition to my Cincinnati lines, I am also in correspondence with the owner of the formula of Anti-Dust, which is a necessity for California, and intend to manufacture it here. But if I meet with stumbling blocks in the way of shipping, I don't feel encouraged.

"If I have done wrong in attempting to ship by a boat going direct to Honolulu kindly let me know as I am new to the coast and there is a whole lot to learn. Very truly yours,

EDWIN C. PEEBLES & CO.,  
Manufacturers' Agent."

"This communication was referred to the transportation committee after being discussed in no uncertain terms by the directors present. Just what action will be taken is not known, but those who seem to understand the situation thoroughly state that within a short time the matter will be heard of again."

### THE STEWARD ESTATE.

William Savidge, Louis R. Medeiros and M. T. Simonton, appraisers in the matter of the estate of Catherine Steward, have filed their report, giving a value of \$17,823.59 to the estate. There was about \$5000 in cash in the bank.

### WHOOPING COUGH.

This is a very dangerous disease unless properly treated. Statistics show that there are more deaths from it than from scarlet fever. All danger may be avoided, however, by giving Chamberlain's Cough Remedy. It liquefies the tough mucus, making it easier to expectorate, keeps the cough loose, and makes the paroxysms of coughing less frequent and less severe. It has been used in many epidemics of this disease with perfect success. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.
